ABOUT

Over 50th years on the industrial business path. We invent and create the choice of quality, and convenience along with solutions for many businesses and this is our prominent point to always focus on the path of new direction "Creator" for the various business. Although design or style knowledge is initiate to us when compared to other companies in similar businesses. However, we hesitate to improve our ability and knowledge to reach an equal position. Eventually, this was embodied as a principle and vision to drive our brand so that we can win and receive a world-class design award from our design just for 2nd year. Determination to Global Design.
